**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Please continue to support competition in internet service. Right now, I use a competitive internet service provider (Raw Bandwidth). I appreciate having this choice in the market and can choose between service providers. I shopped around and was not happy with the big companies in the area. I found a better price from the local service provider I use. I also found that the service I receive is great. I get a discount for paying for 6-months at a time and I don't have to bundle with other things that I don't want (such as a telephone line or cable) in order to get a reasonable price. I also found that when I was getting my internet set up, I could schedule set-up late in the evening, which was more convenient with my work schedule. I appreciate continued competition and do not support reduction to monopolies.

Thank you for considering my perspective.
